

**PROPRIETARY NAME AND DOSAGE FORM:**

**KABUCU (CAPSULES)**

**COMPOSITION:**

Each capsule, for oral administration, contains Sutherlandia frutescens, Buchu, curcumin, CGDFA, and Bioperine.

**PHARMACOLOGICAL ACTION:**

Kabucu may deal with various types of chronic stress and related causes of inflammation. The effects of this supplement are mediated by the ability to modulate targets involved in cancer, Chron's disease, Alzheimer's, and psoriasis. It is proclaimed to have therapeutic effects on conditions such as hypertension, inflamed prostate, UTI's, IBS, and gout.

**INDICATIONS:**

Chronic stress

Inflammation

Digestive complaints

**CONTRAINDICATIONS:**

Kabucu is not advised for patients using anti-retrovirals. If there is any sensitivity towards any of the ingredients, discontinue use of the product, and consult a medical doctor.

**WARNING:**

**THE USE OF BUCHU MAY LEAD TO MISCARRIAGE. PLEASE AVOID IF PREGNANT.**

Patients on chronic medication, especially blood thinners, high blood pressure, and diabetes, should take care as Kabucu may enhance actions of these medications. People with liver disease should take care and not exceed recommended dosage. Product has not been tested for use during pregnancy and/or breast feeding.

**DOSAGE AND DIRECTIONS FOR USE:**

Adults: Take 2 capsules twice a day after meals and at least 2 hours before or after taking any other medication.

**SIDE EFFECTS AND SPECIAL PRECAUTIONS:**

Side effects could include diarrhoea, dry mouth, or dizziness. If any of these occur and there is no improvement after a couple of days, discontinue use and consult a medical doctor.

**KNOWN SYMPTOMS OF OVERDOSE AND PARTICULARS OF TREATMENT:**

There are no known symptoms of overdose, also see SIDE EFFECTS AND SPECIAL PRECAUTIONS.

**IDENTIFICATION:**

A brown powder encapsulated in a size 00 capsule.

**PRESENTATION:**
